PROJECT

Acoustic Barrier wall for residential project

PRODUCT

DESCRIPTION OF JOB

Quick Built Systems were chosen to supply the panels for a boundary fence in Sydney.

Our clients were after the look of a rendered brick fence but they also needed an acoustic sound barrier to keep the neighbours happy to help eliminate any noise that their children will make while enjoying their new pool.

Slenderline Acoustic Fencing System was the perfect solution, as not only did it give our clients an attractive finish and an acoustic sound barrier, it was also cost effective due to the ease of installation as there is no need for expensive footings and formwork.

Please watch our short 3 minute video on youtube to see how easy it is to install a 'Quick Built Acoustic Fencing System' https://youtu.be/mLXkIFQfW_s

Call Quick Built Systems now on 1300 132 787 for an obligation free quote. Add value to your property with the Quick Built Acoustic Panel Fencing System.
